

Principal's Message

Dear Parents and Guardians,

It is with great enthusiasm that we start the new academic year of 2018, and I would like to take this opportunity to welcome everyone back to school. I would also like to extend a warm welcome to the parents of our new Primary One students who have just joined the Gongshang family. As the 10th Principal of Gongshang Primary School, I am truly humbled and honoured to be given this opportunity to serve in a school committed to the holistic development and education of our students. I would like to put on record my heartfelt appreciation to the previous School Leaders, especially my predecessor, Mdm Jackie Kok, for their dedication, leadership and for laying down a strong foundation for our students' education.

As educators in Gongshang Primary School, we are guided by our **DNA** - **D**eveloping a Learning Community, **N**urturing a 21st CC Learner, and **A**chieving Quality School Management Systems. Through these three strategic thrusts, we envision to develop our Gongshangers into healthy, confident, gracious and morally upright pupils with a passion for learning and love for Singapore. We strongly believe that the role of an educator is more than just imparting knowledge and teaching the subject. It is also about inspiring our students to achieve their personal best. We want to provide them with the full opportunity to develop the skills and values like **P**erseverance, **T**hrift, **I**ntegrity, **R**espect (勤俭诚敬) that they will need for life. In this increasingly complex and volatile digital age which is fraught by disruptions, a values-driven education will be imperative in ensuring that our Gongshangers will be able to forge ahead and rise up in meeting future challenges.

In order to achieve our vision, we will continue to work in close partnership with parents, for bringing about quality education and learning requires commitment not only from dedicated teachers, motivated students but supportive parents as well. I would like to thank parents for the support you have provided, both to your child and the school. With also strong support from our other partners - the School Advisory Committee, Gongshang Alumni and the community, we are confident that Gongshang Primary School will continue to scale greater heights.

Yours faithfully,
Mrs Soh-Lim Tzyy Shiuan
Principal

Brief History of the School

The school was founded in 1920 by Mr Shi Su and was originally known as “The Chinese Industrial and Commercial Continuation School”. It had humble beginnings at 267 Tanjong Pagar Road as a night school. It catered to the needs of young migrants from China and was financed by donations received mainly from the Chinese community. The late principal, Mr Lin Zeyang (1921 – 1948) looked beyond the needs of basic education and incorporated vocational training in the curriculum, a move unheard of then. The Old Boys’ Association was set up in 1923 and was a strong source of support for the school. At its height in the 1950s, the school had a record 3800 student who attended both day and night school. In the late 70s, due to problems of urban development and aging population in the vicinity, the school population plummeted to 105. It was during this difficult period that the school management agreed to the Government’s proposal to become a government school. It became a government school in 1985 and was renamed “Gongshang”, retaining the original meaning of “Industrial and Commercial” to mark its roots.

Since the tumultuous days of its founding, Gongshang Primary School has seen better days. It had moved from Enggor Street and York Hill in Outram Road to its present campus in Tampines. Today, Gongshang is a school that continues with the rich traditions of its history, emphasizing a strong Asian tradition and culture. At the same time, the school is moving on with a focus on innovation and creativity. Gongshang will work with our partners, in particular our parents, to take the school into another phase of excellence, providing to all who pass through its gates a total education for life.

School Rules 2018

The Philosophy of Gongshang's Discipline is "Discipline with Care". Every child and adult in the school has the right to a safe and conducive environment for learning and teaching. Thus, everyone in the school has the responsibility to ensure the safety of themselves and others by behaving in a reasonable manner.

The eventual goal of Discipline is Self-Discipline, which is anchored on the school's core values of Respect, Integrity, Perseverance and Thrift as well as the core values of Responsibility, Resilience, Care and Harmony.

In order to achieve this, the school rules state the conduct expected of Gongshang pupils. When a pupil misbehaves within school or outside school, appropriate corrective actions will be taken to help him/ her to improve. In line with the educational goal of character building, one of the corrective actions is the award of "FAIR" for Conduct grade. Pupil Matters

1. Your Child's Character

We value your partnership and support to provide a safe, stimulating and nurturing environment to encourage your child's holistic development. You can help instill school the four school values in your child. The four school values are Perseverance, Thrift, Integrity and Respect.

- a) Giving an appropriate amount of pocket money.
We want our pupils to learn to be thrifty. Bring in the saving concept. Teach them to save up for a rainy day when they have extra pocket money
- b) Inculcating responsibility.
Your child is expected to write down homework assigned in the pupils' handbook. Please check the handbook daily and ensure that all homework assigned is completed. **Do not offer to bring in textbooks/homework which your child has inadvertently forgotten to bring to school and refrain from asking the office to pass messages to your children.** Allow him/her the opportunity to learn to take responsibility of his/her actions.
- c) Acknowledge Positive Behaviour.
Encourage your child to display the school values by acknowledging in the "My Learning Journal" as and when he/she displays the desired school values.

2. Your Child's Work

• Consultation with Teachers

You may wish to consult your child's class teachers regarding his/her work or behaviour from time to time. Please call for an appointment before you meet up with the teachers. The list of telephone numbers (general) and email address of teachers can be found in this handbook.

• Homework

Homework is an opportunity for students to learn and for parents to be involved in their children's education. Your interest can spark enthusiasm in your child and help teach the most important lesson of all – that learning can be fun and is well worth the effort. When you get involved with your child's homework, communication between the school and family can improve. You will be more aware of what is expected of your child and this gives you a first-hand knowledge of what your child is learning and how well he/she is coping in school.

Your child's books/files will be returned regularly to you for signing. Please go through your child's work and discuss with your child ways to improve his/her work.

3. Your Child's Health

• Health Problems

When the school conducts its Pupil Health Declaration Exercise, please provide details of any existing medical condition that your child has. Outside the declaration period, as and when it occurs, please alert the Form Teacher if your child has any health problem.

• Illnesses and Absence from School

When your child is ill, please inform the Form Teacher. As part of social/community responsibility, do not send your child to school, even if it is the examination period. A medical certificate, email or letter from parents is required to cover any absence from school. If your child misses examinations, he/she will be assessed and promoted based on his/her overall performance for the year. If your child is unwell while in school, a teacher or office staff will contact you to make the necessary arrangements for you to fetch your child home or to consult a doctor. If emergency treatment is needed, the school will contact you that we are sending your child to the nearest clinic/hospital and to make arrangements to meet you there.

• Medications

The school is not permitted to use medicated creams/ointments on pupils with head/stomach aches, abrasions or insect bites. Instead, basic first-aid such as comforting, rest and reassurance, icepack to reduce swelling/pain, washing/soothing with water, use of non-medicated sterile plasters, cleaning with saline solution and plain wound dressing will be rendered. If your child needs to use medication, please teach your child how to use it, pack it into their school bags and remind your child to inform the staff giving first-aid. The staff will usually ask your child if he/she has medication. If your child requires an inhaler, please ensure that he/she knows how to use it and to bring it to school.

- **Immunization and Health Booklets**

Your child's immunization certificates and Health Booklets would be required by the School Health Team during health screening exercise. The school will give parents notice of this as early as possible.

- **Health-related Exercises and Measures**

- a) **Temperature-Taking Exercises**

Such exercises are usually conducted after the longer school vacations, to check on pupils' well-being. Parents will be given prior notice of this. Please ensure that your child brings a working Oral Digital Thermometer (ODT) to school on the first day after the school vacation.

- b) **Haze Management Measures**

The school has to comply with requirements stipulated by MOE, MOH and NEA. In addition, the school may implement additional measures which it deems necessary. We seek your understanding and cooperation on these measures. However, the school will respect your decision if you choose to keep your child at home during hazy conditions. Please inform the Form Teacher of your decision through a letter or email.

- **Dental Health**

The dental therapist at the School Dental Clinic will provide free dental treatment and advice.

Opening Hours	Mon – Thu	8.00am – 5.30pm
	Fri	8.00am – 5.00pm
Lunch Hours	Mon – Fri	12.30pm – 1.30pm

For enquiries, you may contact the dental clinic at 67854813.

Dental Consent (For P1 and new students only)

Parents who wish to enrol their child/children for free dental treatment in the school will need to go to <http://childconsent.hpb.gov.sg> to give consent. Please approach the dental staff in the school should there be any problem.

4. School Examination Policy

In the interest of all pupils, pupils who are unwell will not be allowed to take the examinations. Pupils have to be covered by medical certificate for missing any part of the examinations. There will be no make up examination papers. Pupils who missed a part or component or the entire paper for an assessment or Semestral Assessment (SA) will be given a 'VR' (Valid Reason) if he/she has a valid reason. As such, if a pupil had missed his/her SA for a particular subject, his/her overall marks for that subject will be computed based on his/her achievement in the other SA – either SA1 or SA2. Please refer to Table 1 below as a point of reference:

Table 1

Example	SA1 (%)	SA2 (%)	Overall (%)
Pupil A	VR	80	80%
Pupil B	80	VR	80%
Pupil C	VR	VR	VR

- a) To ensure that all pupils are assessed on a level playing field, one of the key consideration is consistency of assessment for the entire year's effort. As such pupils with a VR grade in the Semestral Examination will not be eligible for any internal academic awards.
- b) Pupils who are transferred into the school in the middle of the term and other pupils who have missed certain components of the school assessments, comprising of more than 10% of the overall total marks for the subject, will not be eligible for internal academic awards for that year.
